Creedence Clearwater Revisited at the opening of Cabo Riviera

Tags: Rock And Roll, Master Planned Community, Cabo Riviera, Creedence Clearwater Revisited

Sounds of the 60's filled the night sky on the East Cape the night of October 20, 2008, when Creedence Clearwater Revisited performed at for the VIP opening ceremony of Cabo Riviera www.caboriviera.com.mx, a unique master planned community located next to the town of La Ribiera, on the northeast side of the Los Cabos municipality, facing the Sea of Cortes. The event started at 2:30pm with great food and plenty of drinks and with enough time to walk or drive the premises of what promises to be one of Mexico's most spectacular developments. This master planned community will include a signature design golf course, a five star hotel, the brand is soon to be announced and spectacular marina channel lots where residents will be able to moor their boats or yachts right outside their home, this will truly be a one of a kind place to live, for those who can afford it.

With enough to eat, drink and a quick swim on the Sea of Cortes (for those lucky ones that brought their swim suits) it wasn't long before the main event started around 7:30pm with the unmistakable string sound of Born on the Baoyu for the opening song. Rock and roll hall of fame Stu Cook and Doug "Cosmo" Clifford members of the original Creedence Clearwater Revival along with new members delighted a select group of invitees for over two hours with classics like: Bad Moon Rising, Down on the Corner, Fortunate Son, Green River, The Midnight Special, Proud Mary and many more. Music and lyrics of an age of change and possibilities that resonate with today's baby boomers stronger than ever.

This concert is the first of its kind on the East Cape and we hope there are many more to come, while that happens we salute and thank the developers of Cabo Riviera for a great day at the beach and an impressive and unforgettable evening of Rock and Roll.
