

Los Cabos Islands Realty representing Cabo Riviera

A MODERN RESORT COMMUNITY CREATED FOR THE UNCOMMON INDIVIDUAL

Finally after 50 years of coming and going to Los Cabos, seeing everything imaginable being built, comes a project I can and do believe is right. Cabo Riviera is this project.

Cabo Riviera is everything real yachtsmen want...their home and yacht together. And yes, the home sites really are on several individual islands.

Cabo Riviera with it's eleven islands and beach front sites allows you to have your home with your dock right in front of the house. Fishing, only minutes away. Golfing minutes away. Restaurants, shopping etc. also just minutes away. A truly unique resort community.

As to why I would put my name on this particular project when not others? The number one reason is that they are not looking for construction money. The project is fully funded. Since your investment is not being used to fund the actual development of the project, you have the opportunity to secure your home site at this early stage with a small down payment.

Please feel free to contact me directly about this totally unique residential opportunity, and I will be happy to work with you personally... that's how serious I am about Cabo Riviera.

Most Sincerely,
Robert "Bob" Bisbee
